

Safe from the Start, the UAMS Car Seat Program

Since 2005, UAMS has sold reduced-priced car seats for any baby born at UAMS. We sell car seats to make it easier for families to buy a new, appropriate car seat. All car seats sold by UAMS are appropriate for **any baby who weighs at least 4 lbs.** UAMS has two Child Passenger Safety (CPS) Specialists and many nationally certified CPS Technicians who can answer your car seat questions. Let your nurse know if you would like to meet with one of us. We are here to help! Heather Smith, Program Coordinator
